

## THE LEADER IN FABRICATION OF LAUNCHERS AND RECEIVERS FOR THE OIL AND GAS INDUSTRY ACROSS THE US

Blackeagle Fabrication has been fabricating launchers and receivers for our oil & gas customers across the country, for over 29 years. Customers utilize Blackeagle because of our unmatched capacity and experience, quality and customer service.

### Capacity and Experience

- High-volume fabrication means our prices are competitive with everyone
- In-house painting provides efficiencies to compress delivery schedules

### Quality

- Being an ASME code shop, Blackeagle utilizes many qualified welding procedures that provide the highest of industry standards
- Every product fabricated received the highest quality, detailed shop drawings

### Customer Service

- Industry leading systems to manage your owner-provided material inventory
- Project Managers have extensive experience managing the fabrication, testing, painting and just-in-time delivery of launchers and receivers for customers across the US

### INTEGRATED SERVICES

Blackeagle engineers, fabricates, tests and paints all of our products from one location – you get exactly what you need with only one phone call.

### QUALITY

In the oil & gas industry for over 30 years, Blackeagle is an ASME code shop with U and R stamps and 45 qualified welding procedures, assuring the finest quality of weld processes available.

### SCALE

Working from a facility with over 85,000 sq. ft in production area, 11 overhead cranes, and in-house wet spray booth facility, Blackeagle has the capacity to meet your schedule and volume demands.
